

## What do we need to accomplish that?

### • Your Prayers

- The Bible has all the principles needed to live life well . . .
- How we apply them to concrete situations requires listening to the Holy Spirit in those situations (Dallas Willard)

## Who We Are

### About Us

**Our mission** is to help homeless men who are motivated to live sober, responsible lives. We do this by providing low-cost sober housing. This means that they must pass urine tests, stay up-to-date with their prescriptions, and attend at least one weekly “self-help group” (AA, NA, Chaplain Tim Lanigan, etc.). We also help them become responsible by helping them get a job or sign-up for and begin collecting disability benefits, work to keep them current with their program fees, help them obtain a driver’s license or non-driver’s ID, help them obtain suitable transportation, and helping them develop and pursue life goals.

**Our vision** is to transform homeless men into godly men, mature in their faith, giving back to their community. We do this by encouraging each client to attend at least one weekly Christian meeting (Church service, Bible study, prayer), rebuild relationships, and be actively disciplined by a mature male believer.
